Subject: ALL WAY STOPS AT ROUGE RIVER AND SAVANNA
Date: Monday, January 18, 2016 2:33:46 PM
Importance: High

Good afternoon Scarborough Community Council.

We are the Principal, Wayne Leavey and Vice Principal, Robin Tohana of Alvin Curling Public School. We serve approximately 510 students who range in age from 3 years old – 13 years old. Our students and parents are encouraged to walk to school each day, however, a local crossing area in our community continues to pose a significant danger to their safety. We are deeply concerned about the safety of anyone who crosses the street at Rouge River Drive and Savanna Drive. Students from the South side of this community have to cross at this location to access our school from Antelope Drive. The bend in the road adds an additional danger to the sightlines for crossing pedestrians as well as drivers as there are often a number of parked vehicles in this location. Although a recent study by the City didn't qualify this area for a cross walk, we strongly request that you allow for an "All Way Stop Sign" at this location. Since the opening of our school in January of 2014, pedestrian safety has been our priority and this area continues to threaten the safety of our students.

We appreciate your consideration and assistance in helping us keep our students and families safe at Alvin Curling Public School.

Respectfully,

Mr. W. Leavey
Principal
Alvin Curling Public School
