To: [Scarborough Community Council](#)
Subject: Item SC16.4
Date: Tuesday, September 6, 2016 11:09:51 AM

Good day, the Midland Park Community Association would like to make comment on Scarborough Community Council item SC16.4

The MPCA would like to ask that all healthy trees in Midland Park be protected and that permits and requests to cut healthy trees be denied.

As new home owners come into Midland Park it seems many desire to cut down large, legacy trees and the community along with Mayor Tory and the city of Toronto believe our canopy needs to be protected and augmented not cut down. If a home owner wanted a house without large trees there are many options to purchase houses that fit their desire.

As such we believe if a city of Toronto arborist has deemed the tree vital and viable we ask that any request to harm it be denied.

With thanks,
Mark Weiser
President
Midland Park Community Association
