

**STAFF REPORT  
ACTION REQUIRED**

**Installation/Removal of On-Street Accessible Parking Spaces  
– April 2016 (Non-Delegated)**

<b>Date:</b>	April 15, 2016
<b>To:</b>	Toronto and East York Community Council
<b>From:</b>	Director, Transportation Services, Toronto and East York District
<b>Wards:</b>	Davenport, Ward 18
<b>Reference Number:</b>	Ts2016103te.top.doc

**SUMMARY**

The purpose of this report is to obtain approval for the installation/removal of on-street accessible parking spaces for persons with disabilities.

As the Toronto Transit Commission (TTC) operates a transit service on the subject streets, City Council approval of this report is required.

**RECOMMENDATION**

**Transportation Services recommends that:**

1. City Council authorize the installation/removal of on-street accessible parking spaces at the locations identified in Appendix A attached to the report dated April 15, 2016, from the Director, Transportation Services, Toronto and East York District.

**Financial Impact**

Funds in the amount of \$600.00 are available within the Transportation Services Division’s 2016 Operating Budget.

## **ISSUE BACKGROUND**

The Transportation Services Division receives numerous requests for the installation/removal of on-street accessible parking spaces for persons with disabilities. Some of these requests come directly from members of the public and others are received through the local Councillors' offices.

The installation of designated on-street accessible parking spaces is a convenience provided for persons with disabilities and/or those who transport them, making it easier for them to find available parking as near as possible to their places of residence or intended destinations and reducing the distances that the disabled persons must walk. Delays in installing these on-street accessible spaces may create hardships for disabled applicants.

Timely removal of designated on-street accessible parking spaces when these on-street spaces are no longer required is necessary in order to maximize available on-street parking for other residents/motorists.

## **COMMENTS**

Transportation Services staff have investigated the feasibility of installing/removing on-street accessible parking spaces at the locations identified in Appendix A included in this report. These sections of roadway are served by TTC transit routes.

For locations where on-street accessible parking spaces are being established, all applicants are holders of valid Accessible Parking Permits issued by the Ministry of Transportation and each designated space will not result in the loss of more than one on-street parking space for general use. Locations where on-street accessible parking spaces are to be removed are the result of applicants moving, holding expired permits or no longer requiring these on-street parking spaces.
