Toronto and East York Community Council
100 Queen St. West
Toronto, ON M5H 2N2

Dear Chair and Members,

**NEW BUSINESS REQUEST: Traffic Calming – Brock Avenue,
between Cobourg Avenue and
Croatia Street**

SUMMARY:

On February 18, 2015, Toronto and East York Community Council adopted, as amended, Item TE4.58 entitled "Traffic Calming - Brock Avenue, between Cobourg Avenue and Croatia Street" and, in doing so, authorized the installation of traffic calming on Brock Avenue, between Cobourg Avenue and Croatia Street, subject to a favourable poll of residents. The speed hump poll on the section of Brock Avenue was conducted in May 2015. Based on the poll results, the response rate was insufficient to satisfy the required criteria and therefore the poll was considered to be negative.

Subsequently residents on Brock Avenue have contacted my office to express concerns about traffic volume and higher speed on their street. I conducted a survey of residents on Brock Avenue, between Cobourg Avenue and Croatia Street and found that more than 60% of residents supported installing traffic calming measures on the subject section of Brock Avenue.

RECOMMENDATION:

It is recommended that Toronto and East York Community Council:

1. Direct the City Solicitor to prepare a by-law to alter the roadway to install four speed humps on Brock Avenue, between Cobourg Avenue and Croatia Street, generally as shown on the attached Drawing No. 421G-1719, dated April 2015; and
2. Reduce the speed limit from 40 km/h to 30 km/h on Brock Avenue, between Cobourg Avenue and Croatia Street, coincident with the installation of speed humps as set out in Recommendation 1 above.

Thank you for your consideration.

Sincerely,

Ana Bailão
City Councillor
Ward 18, Davenport
