Members of the Toronto and East York Community Council
Toronto City Hall

February 20, 2016

Dear Members of the Toronto and East York Community Council,

We are writing this letter regarding the WoodGreen Community Housing (Woodgreen) submission for an Official Plan Amendment and Rezoning Application at 1117 Gerrard Street East, Toronto. It came to our attention that the submission fails to mention Parent Resources Centre as part of the new proposed development. We are very surprised of this as we have been working with Woodgreen since the initial stages of this great project.

We would like to offer our support to Paula Fletcher's letter outlining her motion to officially include Parent Resources in Woodgreen's rezoning application for 1117 Gerrard Street East. We hope members of the council will continue to support Parent Resources as they have previously, when council members unanimously approved the motion to keep Parent Resources at 1117 Gerrard Street East and to assist the Centre in finding a temporary location within the neighbourhood during construction.

We are very excited about this new project and all the positive benefits it will bring to the community.

Best regards,

Julie Poitevin
