Dear Affordable Housing Committee,

RE: AH8.7

You have found 90 Million Dollars for Affordable Housing.

How about if you found **41 Billion Dollars SAVINGS**, would this not meet 100% of all your affordable housing needs?

You are "open to business" for developers, than why are you not "open to business for Innovators" ? ? ?

Cancel the Yonge Subway savings:8 Billion Dollars.....
SAVINGS

Cancel the Relief Subway savings:..... 9 Billion
Dollars.....SAVINGS

Cancel Smart Track Savings: 12 Billion
Dollars.....SAVINGS.

Ask Metrolinx to cancel RER Savings..... 13 Billion
Dollars.....SAVINGS.

Plus you can win the "Big Mayors Challenge" Award monies of 5 Million Dollars.

I now have 41 Billion Dollars worth of Real Savings, helped the poor, and have removed as many as 800,000 cars off your highways daily. But Mayor Tory, still does not return emails.

As the actual inventor of "Smart Track", and "Free Transit", I have had to watch you make 41 Billion Dollars worth of mistakes, to create a paper trail revealing the only way to save money, is to work directly with the Inventor of big innovations. I told John, I invented Smart Track, prior to the 2014 election, but he didn't want to believe me. Toronto needs "Regional Smart Track", which provides the best savings to meet all your affordable housing needs.

Regional Smart Track **FREE** GTA GO Trains

2016 Weekday Rail Moved = 212,519

(272 Train Trips)

Innovation Goal: **MOVES** 1,034,640 Persons Daily
