Subject: RE: Item TE21.63 - Endorsement of Events for Liquor Licensing Purposes

Good morning Ellen,

Hope you are well despite the dark dreary day today. Listen further to the decision of City Council from January 31, 2017, to allow the temporary extension of our liquor licence for Loose Moose to the alleyway for Canada Day, I am writing to see if I could get some assistance. I inadvertently applied for approval from the City for the temporary extension of alcohol to only be on Canada Day. As you are aware, we were also given approval to set up on June 30th and take down on July 2, 2017. My understanding from our executive here was that the 30th was only to be set up date but apparently their intent was to set up on the 30th but also to have the temporary extension of the liquor licence to start on the 30th after set up and also be on Canada Day with no service on the take down day of the 2nd.

So, my question is - is there a quick fix to this or do I need to go through the whole application process again especially since we have already been given approval to us the alley way on the 30th.

Any help would be so appreciated as I am in a bit of a pickle with them right now....Thanks in advance!!
