

REFERRAL OF ADMINISTRATIVE INQUIRY FROM CITY COUNCIL

Toronto Fire Services - Open Data

Date:	July 18, 2017
To:	Community Development and Recreation Committee
From:	City Council
Wards:	All Wards

City Council Decision

City Council on July 4, 5, 6 and 7, 2017, referred Administrative Inquiry IA31.2 from Councillor Paul Ainslie, Ward 43, Scarborough East, regarding Toronto Fire Services - Open Data, and Answer IA31.2a from the Fire Chief and General Manager, Toronto Fire Services, to the Community Development and Recreation Committee for consideration.

Summary

Councillor Paul Ainslie submitted the following Administrative Inquiry:

I am submitting this Administrative Inquiry under Municipal Code S27-61 to seek information regarding Toronto Fire Services (TFS) open data sets referenced in 2016.CD13.7.

Toronto Fire Service reported that they were committed to transparency in data reporting and had adopted the City's Open Government by Design initiative with the anticipation to release the open datasets by the fourth quarter 2016.

I am requesting answers to the following questions:

1. Why has Toronto Fire Services (TFS) not released the open datasets as per the City of Toronto's mandate?
2. When will TFS regularly release open data sets and update on a regularly basis?
3. When will TFS provide a detailed list of the soon to be released open data sets with the date for release?
