

May 5, 2017

Hi,

Here are two motions for the next meeting:

1. Request that Shelter, Support, and Housing Administration update Toronto Accessibility Advisory Committee on the progress of accessibility particularly to shelters in Toronto that are for both men and women. The purpose is also to revisit previous agenda items to provide disability specific services in shelters (i.e. attendant care). Please see housing sub-committee meeting minutes. I sent this in a previous email to be distributed
2. That a short-term sub-committee be formed arising out of TAAC to establish a report and recommendations regarding disability and disability issues related to policing in the City of Toronto. This motion arises from concerns in the disability communit(ies) about policing and police services. The TAAC will start this discussion with members agreeing to be a part of this short-term committee at the next meeting.

Terri-Lynn Langdon
