COMMENTS

Transportation Services investigated a 311 request from area residents regarding sightline issues and driveways being obstructed by parked vehicles on Rogers Road. A map of the area is Attachment 1.

Rogers Road is 9.8 metres wide road, classified as a "Minor Arterial" in the City's road Classification system. Rogers Road operates two-way with a posted speed limit of 40 km/h. Toronto Transit Commission operates bus service on Rogers Road and bus stops are located just east and west of Lauder Avenue.

Stopping is prohibited at all times on the south side of Rogers Road, between a point 15 metres west of Lauder Avenue and a point 15 metres east of Lauder Avenue. Parking is permitted for a maximum of one hour, from 8:00 a.m. to 6:00 p.m., Monday to Saturday, on the south side of Rogers Road, between a point 15 metres east of Lauder Avenue and a point 46.8 metres west of Glenholme Avenue. The current one hour parking limit has been signed on-street for a number of years, however, the entry is not listed in Chapter 950.

Observations conducted by Transportation Services staff indicate that the sightlines of driveways are being obstructed by parked vehicles, some of which are blocking the entrances of the driveways.

Transportation Services recommend that the No Stopping Anytime prohibition be extended on the south side of Rogers Road, between a point 15 metres west of Lauder Avenue and a point 30 metres east of Lauder Avenue, in order to improve sightlines and prevent resident's driveways from being obstructed. This will result in the loss of one parking space.
