Re: Transportation Services, Cycling Infrastructure & Programs- Open Data

Dear Ms. Watkiss,

I am submitting this Administrative Inquiry under Municipal Code S27-61 to seek information regarding Transportation Services, Cycling Infrastructure & Programs lack of open data sets with regards to Transportation Services

Transportation Services to date is responsible for releasing 5 of 250 datasets currently on the City of Toronto Open Data Portal released one dataset

I regularly get inquiries as to when more comprehensive datasets dealing with such things as road infrastructure, street sweeping schedules, and traffic counts will be publicly released?

I am requesting answers to the following questions:

1. When will Transportation Services regularly release open more comprehensive datasets and update them on a regularly basis?
2. When will Transportation Services provide a detailed list of the soon to be released open datasets, with the date for release?

Sincerely

Paul Ainslie
