Re: IA35.1 Cost of Preventing Information Being Released at Toronto Hydro

Dear Mr. Wallace,

As noted in a previous response to an administrative inquiry in January 2017 — IA23.1 Toronto Hydro's Hired Consulting Firms — the *Toronto Municipal Code* does not provide for the making of administrative inquiries in relation to Toronto Hydro. While Administrative Bylaw, Chapter 27-61 permits city council to make administrative inquiries about the affairs of the City in advance of council meetings, the definition of the City in Chapter 1, General Provisions, Article 1-2.A.1 of the *Toronto Municipal Code* is limited to the municipal corporation and the administrative inquiry power does not extend to the affairs of Toronto Hydro.

Although information is not compellable from Toronto Hydro under the *Toronto Municipal Code*, the company nonetheless endeavours to provide voluntary responses to such inquiries to the extent that we can having regard to freedom of information laws and under the constraints of securities law, legal privilege and commercial sensitivity. However, in this instance, IA35.1 seeks information in relation to four separate freedom of information requests, all of which remain in the appeal stage before the Information and Privacy Commissioner of Ontario (IPC). Accordingly, Toronto Hydro is not in a position to comment on the substance of those appeals while they remain subject to adjudication by the IPC.

Sincerely,
