**Request Toronto Hydro to Conduct Further Consultation with Residents on "Reliability Improvement (Project Carlaw B1E and B13E): Ward 30" - by Councillor Paula Fletcher, seconded by Councillor Joe Cressy**

*\* This Motion has been deemed urgent by the Chair.*

*\* This Motion is not subject to a vote to waive referral. This Motion has been added to the agenda and is before Council for debate.*

**Recommendations**

Councillor Paula Fletcher, seconded by Councillor Joe Cressy, recommends that:

1. That City Council request Toronto Hydro to temporarily halt the installation of Hydro Poles as part of all phases of "Reliability Improvement (Project Carlaw B 1 E & B1 3E)" and conduct further proactive consultation with all residents who will be affected by the proposed relocations of Hydro Poles.

**Summary**

As part of reliability improvements Toronto Hydro is in the process of replacing old hydro poles and installing poles in new locations. Residents who will have a pole move more than a meter receive notification, but no official chance to express concerns prior to the pole location being determined. Residents who have poles moving less than one meter are not given specific notification. The lack of consultation prior to the pole locations being determine and the lack of a formal process by which to make their concerns known should be remedied.
