COMMENTS

The subject property is located on the south side of Deloraine Avenue, east of Avenue Road. The
property is zoned R2 Z0.6 under Toronto Zoning By-law No. 738-86 and R (7.5; d0.6)(x604) in
the City of Toronto Zoning By-law No. 569-2013. The subject property is designated Neighbourhoods in the City of Toronto Official Plan.

The proposal is to construct a new two-storey detached dwelling with an integral garage. The
application proposes a building depth of 18.82 metres whereas 17 metres is permitted under the
new City of Toronto Zoning By-law No. 569-2013. Building depth is devised, in part, to regulate
the size of structures to maintain a consistent pattern of development between neighbouring
properties. The proposed building depth does not maintain the general massing and scale of the
neighbourhood. There have been some similar approvals for the first floor of the dwellings in the
neighbourhood, however the depth above the first floor has conformed to the 17 metres required
by the By-law. Staff believe that the proposed building depth is contrary to the intent of the
Zoning By-law.
Should the Committee choose to approve this application, staff recommends that the building depth be reduced to be more in keeping with the intent of the Zoning By-law.
