The proposed building length is 15.82 m.

**COMMENTS**

The subject property is located on the south side of Florence Avenue, west of Yonge Street and south of Sheppard Avenue West. The property is zoned R6 under former North York Zoning By-law No. 7625 and zoned RD (f12.0; a370) in the new City of Toronto Zoning By-law No. 569-2013. The application proposes a new dwelling with an attached garage.

Planning staff have concerns with the variance for the proposed elevation of the garage entrance. The application is requesting relief from Zoning By-law No. 569-2013 to allow the entrance of the garage to be below the elevation of the centreline of the driveway where it intersects the front lot line. Planning staff are of the opinion that approval of this variance will create a below-grade garage, which could increase the potential for basement flooding.

On December 4, 2009, City Council enacted a Zoning By-law Amendment intended to stop the development of below-grade garages. Specifically, Zoning By-law No. 1196-2009 requires the elevation of the lowest point of an opening to an area that may be used for parking or storage of a vehicle located inside or abutting a dwelling, to be higher than the elevation of the street, measured at its centreline across from the driveway leading to the parking space. The intent of this amendment to the Zoning By-law was to address issues relating to grade-related basement flooding.
Staff are of the opinion that the variance for the proposed elevation of the garage entrance is contrary to the intent of the Zoning By-law. As such, staff recommend that Variance No. 5 be refused.
