Heritage Preservation Board
Re: item 21.1

Dear Board Members:

March 22, 2017.

Harbord Village Residents' Association wishes to join the Mirvish Village Task Group in approving the level and extent of heritage preservation contemplated in this report.

For several years, HVRA, Palmerston Area Residents' Association, Seaton Village and the Annex Residents' Associations, have worked collectively in support of retention of the streetscape along Markham, and buildings along Lennox and Bathurst. At this point, 24 of 27 identified buildings have been selected to be restored and retained—many of them at full volume.

We would appreciate your consideration for extending the protection to a further set of buildings, north on Bathurst Street—756-758 and 760.

In doing this work, Heritage Staff have been firm and creative. The developer, Westbank, and ERA Architects have been responsive. The City and local communities now and in the future will thank them.

With thanks,
Sue Dexter
Harbord Village Residents' Association Board.
