**Attention: Chairman & Members of the Planning & Growth Committee**

Dear Sirs:

**Re: Airport Zoning Regulation to Protect Hospital Helicopter Flight Paths  
Preliminary Report  
Item PG22.4**

On behalf of our clients, The Hospital for Sick Children and St. Michael's Hospital, we are writing to advise that we have reviewed the August 1, 2017 report prepared by the Chief Planner and Executive Director of City Planning regarding Airport Zoning Regulations to protect the Hospital helicopter flight paths. Our clients support the City's initiative in advancing what we believe to be appropriate regulations that will ensure the continued safe operation of the Hospitals' helicopter flight paths. We look forward to continuing to work with the City in connection with this important initiative.

Yours very truly,

**GOODMANS LLP**
