Dear Councillor Robinson and Committee Members:

Re: PW24.8 - Freight & Goods Movement Strategy Framework

The Toronto Industry Network is very pleased that Transportation Services will be undertaking a study related to the movement of freight and goods in our city. This has become a major concern to a number of our members who rely on just-in-time freight shipments. TIN looks forward to participating in and contributing to the study.

However, we respectfully ask that the lead paragraph of the staff report and its summary be changed to include: "...commercial, **industrial**, residential and recreational development." This inclusion would recognize the important role manufacturing plays in Toronto's economy.

We thank you in advance for your assistance.

Sincerely,

Andrew Judge,
President
