RE: Implementation of Permit Parking on Non-Licensed Streets

Currently 90% of the local roads in Ward 32 are designated under the Residential On-Street Permit Parking Program. Including the attached list of local streets would provide consistency with parking regulations on the majority of local roads that are predominately residential in Ward 32. This motion requests that we exempt these streets from the requirements of subsection 925-4B of City of Toronto Municipal Code Chapter 925.

Subsection 925-4B of City of Toronto Municipal Code Chapter 925, Permit Parking, provides that:

Where permit parking is not currently available and where a petition requesting permit parking signed by the residents of a minimum of 25% of the total number of residential premises having a residential address on the street or the flank of the street is submitted to the General Manager, a poll shall be conducted in accordance with Chapter 190, Polling and Notification, to determine if the residents wish to have permit parking on their road or area, as the case may be. In the event of a positive polling result, the General Manager shall report such result to the appropriate community council, which community council under delegated authority, shall be authorized to pass any necessary by-laws to implement permit parking on the road or area. In the event of a negative result, permit parking shall not be extended to the road or area, and no further permit parking poll shall be conducted for a period of two years

RECOMMENDATIONS

Councillor Mary-Margaret McMahon recommends that:

1. City Council exempt the implementation of permit parking on the streets noted in Attachment 1, from the requirements of subsection 925-4B of City of Toronto Municipal Code Chapter 925, Permit Parking, until such time as Toronto and East York Community Council considers a request for implementation of permit parking at that location.

Thank you for your consideration.

Sincerely,
