Re: Installation of All-way Stop Controls at Glen Road and Roxborough Drive and Glen Road and Binscarth Road

Speeding on Glen Road in North Rosedale has been a concern for local residents for several years. A 2015 study of traffic conditions found that 57 percent of the 4,500 vehicles that travel daily on Glen Road are exceeding the posted speed limit of 40 km/h. This is particularly a problem for pedestrians attempting to cross Glen Road.

The North Rosedale Residents' Association has been diligently consulting with residents and local stakeholders about how conditions on Glen Road can improve. The presence of the 82 Rosedale TTC bus prohibits traffic calming measures, such as speed humps, from being installed, so stop signs were examined as a potential way to reduce speeding. The installation of all-way stop controls at Glen Road and Roxborough Drive and Glen Road and Binscarth Road would help slow motorists down while providing safer conditions for pedestrians.

RECOMMENDATIONS

It is recommended that:

1. Toronto and East York Community Council approve the installation of all-way stop control at the intersection of Glen Road and Roxborough Drive.

2. Toronto and East York Community Council approve the installation of all-way stop control at the intersection of Glen Road and Binscarth Road.

Thank you for your consideration.

Respectfully submitted,

Kristyn Wong – Tam
Councillor, Ward 27
Toronto Centre – Rosedale
