Re: Parking Regulations – Wellington Street East

Dear Toronto and East York Community Council members,

**Summary:**

The purpose of this report is to seek approval to temporarily modify the on-street parking on the north side of Wellington Street East, between Church Street and Yonge Street. The current parking regulations which were established in anticipation of construction of streetscape improvements prohibit stopping at all times on this section of Wellington Street East. However, the anticipated construction activity has been delayed for approximately one year in order to allow utility work to proceed. In the interim, approximately 130 metres of street frontage on the north side of Wellington Street East between Church Street and Yonge Street could be used for paid meter parking.

It is recommended the current parking regulations be amended to allow parking on this section of Wellington Street East until such time as the proposed streetscape improvements are completed. Once this construction has been completed the parking regulations would be amended to reflect the Council approved ultimate design.

These proposed amendments will:

- a) increase parking revenue along the north side of Wellington until such time that construction commences to implement the streetscape improvements;
- b) provide some parking relief from the losses on King Street due to the Pilot Project; and
- c) represent the future operating conditions of the street.

As the Toronto Transit Commission (TTC) operates a transit service on Wellington Street East, City Council approval of this report is required.

**RECOMMENDATIONS**

1. City Council approve the temporary amendments to parking regulations set out in 'Attachment 1 – Temporary Amendments to Parking Regulations', to be implemented until such time as the road alterations on Wellington Street East between Church Street and Yonge Street are completed.

Thank you for your consideration.

Respectfully submitted,

Kristyn Wong-Tam  
Councillor, Ward 27, Toronto Centre-Rosedale
