November 14, 2017

Toronto and East York Community Council
Committee Room 1
Toronto City Hall, 100 Queen West
Toronto, ON M5H 2N2

Dear Chair and Members,

Re: Spadina and 371 Bloor St W/Site One, full signalization

University of Toronto Schools (UTS) is in the midst of a consultation process on a redevelopment proposal for their site. Their redevelopment is part of the block bound by Bloor St W, Spadina Ave, Huron St and Washington Ave.

In order to provide access to the block for the future, I have been working with UTS, the University of Toronto, the Huron-Sussex Residents’ Organization and Transportation Services to establish an access point that will mitigate impacts from development on the block. A full signalization of Spadina, approximately 85 metres south of Bloor St W, will ensure adequate access to the site while limiting traffic impacts on the local neighbourhood.

Recommendation

Toronto and East York Community Council direct that:

1. Toronto and East York Community Council direct the General Manager, Transportation Services, to review the installation of a traffic control signal at the private driveway on the east side of Spadina Avenue approximately 85 metres south of Bloor Street West, and report back to the February 21, 2018 meeting of Toronto and East York Community Council with recommendations, including if recommended, beginning work to design the signalized intersection in cooperation with local stakeholders.

Sincerely,

Joe Cressy
City Councillor
Ward 20, Trinity-Spadina
