Re- **No Objection to Event for Liquor Licensing Purposes**
Event of Municipal Significance
Toronto International film Festival, September 1 until September 16, 2018
Applicant – King Taps Restaurant 100 King Street West, Toronto

Council members,

I write you today for Council's support to add King Taps establishment to the approved list of licenced premises that will be permitted to operate until 4 AM from September 1 to September 16. One of the other restaurants, the Cactus Club Café located in First Canadian Place is already on the approved list. However, as I wrote last year, my client's other establishment in the First Canadian Place (King Taps, located at 100 King Street West) was not listed on the approved establishment list. It appears that this year King Taps is not listed as one of the establishments that have been vetted through the council member's process for approval and thus my request letter.

I would ask that Council amend the approval list to include King Taps. This year they have received additional interest from other TIFF associated performers and entertainers and we need assurance prior to booking any event at King Taps that we shall receive the Council's support. The proposed dates for the event are from September 6th through to the 10th and they would be for both the Cactus Club and King Taps locations.

As with last year, we have been informed by the AGCO that we first must have a letter of consent from the City of Toronto prior to our applications being processed for the extended time period to a maximum of 4 AM for the nights of the Toronto International Film Festival.

Thank you very much for your consideration,

Randall Olafson
