Re: Healthcare Supports for the New Hope Leslieville

Dear Chair Pasternak and Committee Members,

Please find attached a letter from Lynne Raskin, the CEO of South Riverdale Community Health Centre (SRCHC) regarding health services for the new Hope Shelter on Leslie St.

As you will recall, one of the requirements for the Hope Shelter was to have a healthcare professional attached to the facility, and City Council endorsed the SRCHC as the provider within the neighbourhood.

I understand that commitments have been made by the province for health service providers at six shelters through the LHIN.

I am requesting that the Deputy City Manager confirm these six new positions in a report to the CDRC on February 28, 2018 and to report on:

- Which six shelters will receive health service providers
- The criteria for initiating these services at these locations
- The start date
- How the services will be delivered
- What commitments have been made, if any, for future shelters

Sincerely,

Paula Fletcher
City Councillor
Ward 30, Toronto-Danforth

CC South Riverdale Community Health Centre
Peter Tabuns, MPP, Toronto-Danforth
