Real Estate Acquisitions & Expropriation of Property Interests near Donlands Subway Station for the Easier Access Phase III & Secondary Exit Projects

Date: June 12, 2018  
To: Government Management Committee  
From: Director, Real Estate Services  
Wards: Ward 29 - Toronto -Danforth

SUMMARY

As part of the Easier Access III and Second Exit Projects (the "Projects"), the Toronto Transit Commission (TTC) is proposing to make Donlands Subway Station accessible by constructing two new elevators and is also improving customer safety and convenience by constructing a new second exit building. This report seeks authority to acquire fee simple and permanent and temporary easement property interests that will enable pedestrian access from two (2) new elevators and a second exit to be constructed at the Donlands Subway Station (the "Station").

Negotiations for the acquisition of the property interests have been ongoing with the owners, however in order to protect the Project timeline this report seeks authority to acquire the property interests and if necessary initiate expropriation proceedings.

RECOMMENDATIONS

The Director, Real Estate Services recommends that:

1. City Council authorize the Director, Real Estate Services to continue negotiation for the acquisition of the property interests near Donlands Subway Station listed in Appendix "A" and shown on the draft Reference Plans attached as Appendix "B" and on the maps attached as Appendix "C" (collectively the "Lands"), and grant authority if necessary to initiate expropriation proceedings for the Lands, if the Director, Real estate Services deems it necessary or appropriate to proceed in that manner.

2. City Council grant authority for the Director, Real Estate Services to serve and publish Notices of Application for Approval to Expropriate the Lands, to forward to the Chief Inquiry Officer any requests for hearing that are received, to attend any hearing in order to present the City's position and to report the Inquiry Officer's recommendations back to City Council for its consideration.
FINANCIAL IMPACT

The detailed funding amounts will be included in a subsequent report to Committee and Council to identify the financial implication to the City and confirm funding availability within the TTC's 2018-2027 Council Approved Capital Budget and Plan for the acquisition of the property interests; or for expropriation costs including the market value of the Lands, as well as disturbance costs (if any), interest, land transfer tax costs, and all other associated costs stipulated under the Expropriations Act.

The Interim Chief Financial Officer has reviewed this report and agrees with the financial impact information.

DECISION HISTORY

The Project is an important part of the 2014-2018 TTC Accessibility Plan in its objective to fulfill the provincially legislated requirements in the Accessibility for Ontarians with Disabilities Act, 2005 ("AODA"). As part of the Project, the TTC is proposing to construct two (2) elevators at the Station, providing access from platform level to concourse level. As well as part of the Project TTC will be improving customer safety and convenience by constructing a new second exit building on Dewhurst Boulevard.

In order to protect construction time lines City Real Estate and the TTC is seeking authority to acquire the property interest, by agreement or expropriation.

COMMENTS

In order to access the elevator and second exit structures, at this location, it is necessary to acquire the Lands. The proposed location of the easier access elevators and second exit has been identified as the most feasible option from an engineering and customer service perspective.

In the interest of maximizing efficiencies in the implementation of multi-program initiatives and to minimize the impact on the neighbourhood around the Station during construction, the Projects for the Station have been combined into one construction contract.
Negotiations with the owner to acquire the Lands have been on-going. In order to ensure delivery of the property requirements to meet the Project construction schedule, it is now appropriate to seek City Council authority to acquire the Lands and where appropriate and, if necessary initiate expropriation proceedings.
