Greetings,

The Labour Council is requesting a deferral of Item 23.7 on today's agenda: The Feasibility of Developing a Canadian Content Policy for Toronto's Procurements in Compliance with Existing Trade Agreements.

A number of organizations would be interested in reviewing this report in order to offer their analysis of the state of CETA's implementation and the current negotiations of NAFTA which may result in different procurement practices.

Sincerely,

John Cartwright  
President  
Toronto & York Region Labour Council
