To: Public Works and Infrastructure Committee Members
Re: Local Traffic Vehicle Decals

Recommendation:

1. The Public Works and Infrastructure Committee request the General Manager of Transportation Services with the appropriate City staff and divisions to report on the implementation of some type of local traffic vehicle identification program, possibly a window decal.
2. The General Manager of Transportation Services give consideration in the report to the implementation of a pilot project in the Seven Oaks community of Ward 43 Scarborough East.

In an effort to address traffic volume and speed on local roads with multiple access points in school zones, traffic calming measures have been implemented to deter vehicles from shortcutting in communities. These measures include turn prohibitions.

While turn prohibitions and traffic calming measures assist in addressing the motor vehicle shortcutting through communities, some local residents feel penalized. A local traffic vehicle decal would resolve this matter. A simple sticker affixed to the vehicle would alert traffic enforcement to allow local residents to access their community.

Thank you, in advance, for your consideration of this request.

All my Best,

Councillor Paul Ainslie
City of Toronto
Ward 43 Scarborough East
