Re: Pilot Bike Share Program in South East Scarborough

I'm writing this letter to confirm that Boys & Girls Club of East Scarborough are in complete support of Councillor Paul Ainslie's proposal to animate a Pilot Bike Share Program in South East Scarborough.

Boys & Girls Club of East Scarborough is the lead agency for the Healthy Kid Community Challenge in East Toronto, and we've been working hard alongside our project partners to increase awareness and access the wellness initiatives that encourage mobility and healthy eating habits in children and youth in East Scarborough for the past three years. Should the City of Toronto decide to make an investment in expanding access to a Bike Share program through the proposed pilot, we are convinced that this initiative will result in healthier, vibrant, and interconnected East Scarborough community.

Boys & Girls Club of East Scarborough looks forward to supporting this initiative and strongly encourage that this committee to do the same.

Please contact me should you require any additional information.

Sincerely,

Utcha Sawyers

Executive Director
