RE: Request to Amend the Zoning By-law Application No. 17 114981 ESC 44 OZ

We wish to oppose the above captioned request to Amend the current Zoning to allow a waste handling operation which at present has a municipally prohibited use designation in this area.

We feel that waste handling operations should be taking place in an area with that designation already in place. Businesses who have purchased in this area did so knowing there would be no waste handling in the vicinity.

Our property values will be adversely affected by this change.

I question if a waste handling facility with it's associated pests and odors is well positioned between two food processing facilities.

Minuk Acres is a small cul-de-sac and is already filled to capacity serving the needs of the present businesses and will not comfortably accommodate an increase in truck traffic.

Best Regards,

Gillian Yazdani
