

1. Copyright of this drawing is reserved by the Architect. The drawing and all contained documents are an instrument of service by the Architect. The drawing and the information contained therein may not be reproduced, stored in a retrieval system, or transmitted in any form or by any means, electronic, mechanical, photocopying, recording, or by any information storage and retrieval system, without the prior written permission of the Architect.

2. These General Conditions are the property of the Architect. No Architect fees or responsibility for the interpretation of these documents by the Contractor shall be transferred to the Contractor. The Architect will provide professional, architectural or engineering consultation regarding the scope of the Contract Documents. The Architect will review the drawings submitted by the Contractor for design coordination only.

3. Drawings are not to be used for construction. The Contractor is to verify all existing conditions and dimensions required to perform the work and report any discrepancies with the General Conditions to the Architect before commencing any work.

4. Features of original physical construction or structural details, fittings, and fixtures are indicated on architectural drawings. The features shown on the architectural drawings govern over the Manufacturer and Supplier drawings. Items shown on their respective drawings but not on the Architect's drawings shall be omitted as shown by the Architect.

5. These drawings are not to be used for construction unless noted below as "Issued by the Contractor".

6. All work shall be carried out in accordance with the Code and Rules of the authority having jurisdiction.

7. The Architect of these plans and specifications does not warrant or represent in any way that the construction will be completed by the date or within the budget or schedule or otherwise nor shall the Architect be liable for any delay or cost overruns that may occur as a result of the work performed by these plans.
