

IE6.11 – Multiple Communications from 19 individuals, with the subject line: "I support pilot protected bike lanes on Danforth Ave and extending bike lanes on Bloor"
(Current to 4:15 pm on Monday, July 15, 2019)

Communications similar to the following text:

I am writing to you today in full support of building protected bike lanes on Danforth and extending protected bike lanes on Bloor West by 2020 as part of the Cycling Network Plan Update.

Since 2016, we've seen no further extension of bike lanes on Bloor or Danforth, and I am not comfortable with waiting another 2 years while more studies are conducted. Thousands of people ride on these roads and deserve safety, and many thousands more would ride if they could do so safely.

We also know that protected bike lanes make streets safer for everyone (City Staff found a 44% reduction in collisions for ALL road users after the Bloor pilot was installed). If we're serious about Vision Zero, then we also have to be serious about cycling infrastructure.

Cycling advocates, newcomers to Canada, doctors, schools, families, businesses, and now me - all of us are calling for a commitment to building protected bike lanes on Danforth & Bloor!

Sincerely,
