In an effort to ensure accessibility considerations are embedding in the implementation of the Poverty Reductions Strategy I request that a representative from the Poverty Reduction Strategy make a presentation to provide an update on poverty reduction activities and seek feedback from the committee at a future 2019 Toronto Accessibility Advisory Committee Meeting.

Recommendations:

That:

1. The Executive Director, Social Development, Finance and Administration be requested to make a presentation prior to the end of 2019 to update the Toronto Accessibility Advisory Committee on the Poverty Reduction Strategy.

Michael Miceli

Member of the Toronto Accessibility Advisory Committee
