Dear Mayor Tory and Executive Committee,

I am writing to express my support for Councillor Matlow and Councillor Cressy's motion to ensure Torontonians know the facts about the proposed subway upload. Torontonians deserve to know the truth about the potential risks involved with the province stealing our subway, including:

- Nothing is actually stopping the Province from building transit in Toronto right now. Uploading the existing subway does not affect the Ford government's ability to construct and own new lines or extensions. In fact, the Province is currently building, and will own, the Eglinton Crosstown.
- The Province would gain control of lucrative air rights above stations and adjacent properties, owned and paid for by Torontonians.
- The Province would have complete control of rapid transit planning. Their stated priorities include building subways to Pickering, and other projects that put politics before people.

On Thursday, please support this important motion. Your vote to protect Toronto's subway is important to me.

To the City Clerk: Please add my comments to the agenda for the [March 21, 2019](#) Executive Committee meeting, on items EX3.1 and EX3.12. I understand that my comments and the personal information in this email will form part of the public record and that my name will be listed as a correspondent on agendas and minutes of City Council or its committees.
