Dear Mr. Chair and Members of the General Government and Licensing Committee

Re: Comprehensive Review of Holistic and Body-Rub Parlour Regulations

I am making this submission on behalf of 2 King Thai massage health care centres which we have currently over 2000 clients in Toronto. We do think that eliminating holistic licensing is different from increasing the cap on body rub parlours

1 in 4 Toronto 'holistic centres' offer erotic massages. Please strictly punish and fine holistic centre owners and staffs who violate regulation. Suspend their holistic licence and centre license even send them to jail. Reward people who report any illegal activity.

Do NOT allow any erotic Advertising on the Internet absolutely . Heavy harm can flow to the public from this method of advertising. We don't want erotic advertisement pollute our children's view on internet. We don't want Toronto become Second Bangkok of Thailand either. Clearly, body rub parlours should be not permitted to have their own websites and post advertisements on the internet. Please set up

strictly city regulations and punish offenders seriously.

I do appreciate that staff and this Committee are taking the time to give these issues due consideration.

Yours truly,

Bernice Li
