

The Annex Residents' Association

Toronto, June 10, 2019

To: Members of the Special Committee on Governance
City Hall

The unilateral reduction in the size of City Council from 47 to 25 members has resulted in a democratic deficit, negatively impacting the quality of governance that residents of Toronto had come to expect and to which they are entitled.

The Special Committee on Governance established by Council is seeking input on the implications of the reduction and suggestions for recommendations to address this democratic deficit.

We support the submission to the Committee of the Harbord Village Residents' Association dated June 8th.

Yours truly,

Rita Bilerman
Chair, Annex Residents' Association
