To the Members of the Infrastructure and Environment Committee,

Congestion Management Plan Status Report

In 2016 the 2014-2018 Congestion Management Plan was extended to 2020. A Note provided to City Council on key city issues for the 2018-2022 term stated that a congestion management status report would be provided in early 2019, and an updated Congestion Management Plan for the 2021-2025 period by the end of 2019. I have consulted with the Clerk's office and no update has been received this year.

RECOMMENDATION:

That the Infrastructure and Environment Committee request the General Manager, Transportation Services to provide an update on the Congestion Management Plan at the next meeting of this Committee

Thank-you for your consideration of this item.

Sincerely,

Denzil Minnan-Wong
