

Memorandum

To: Members of the Infrastructure & Environment Committee

From: *Councillor A. Perruzza*

Date: November 7, 2019

Subject: Ensuring the Quality of Toronto's Drinking Water

Dear Members of the Infrastructure & Environment Committee,

I recommend that:

1. The Infrastructure and Environment Committee direct the General Manager of Toronto Water, in consultation with the Medical Officer of Health, in response to the recent media reports with regards to lead in drinking water, to post any and all testing results immediately on the City's website, as well as any public education information, which residents can use to assess the safety of Toronto's drinking water.
2. All drinking water results and any additional information, including testing methodology, be reported to the next meeting of the Infrastructure and Environment Committee for its review.

Sincerely,

Councillor Anthony Perruzza
Ward 7, Humber River-Black Creek
