To the Members of the North York Community Council

Re: Request for City Staff Report to undertake a neighbourhood level study of the Lawrence Heights, specifically with a focus towards traffic calming measures.

Summary:

On August 9th, 2019 I held a meeting in Lawrence Heights with residents and members of the LHION Safety Committee in Lawrence Heights to provide an update on the work the City has been doing and getting feedback from residents.

This is a most challenging time for our City and local community, as we experience this explosion of gun violence.

In addition, I had organized a walkabout with Transportation Staff at Lawrence Heights on August 16, 2019 with local residents to help identify some of the possible enhancements that can provide immediate benefits to the community.

In consideration of local community and residents having expressed great concern towards traffic calming measures that can be taken, I therefore ask that City Staff report back to North York Community Council with a report on their neighbourhood level study of the Lawrence Heights with specific focus towards traffic calming measures.

Recommendation:

That North York Community Council,

1. Request for City Staff Report to request that staff undertake a neighbourhood level study of the Lawrence Heights neighbourhood specifically with a focus towards traffic calming measures that can be taken.
