

Compulsory Stop Control - Scarbell Drive and Starfire Drive (Northwest Intersection)

Date: December 10, 2018
To: Scarborough Community Council
From: Acting Director, Traffic Management, Transportation Services
Wards: Ward 25 – Scarborough-Rouge Park

SUMMARY

This staff report is about a matter for which the Community Council has delegated authority from City Council to make a final decision.

This report recommends that a minor street stop sign be installed at the uncontrolled three-way intersection of Scarbell Drive and Starfire Drive (northwest intersection) in order to clearly define the right-of-way and to regulate traffic flow.

RECOMMENDATIONS

The Acting Director, Traffic Management, Transportation Services, recommends that:

1. Scarborough Community Council authorize compulsory stop control for northbound traffic on Scarbell Drive at Starfire Drive (northwest intersection).

FINANCIAL IMPACT

The financial cost of installing the subject recommended stop sign is approximately \$500.00. All costs associated with the necessary signage installation are included within the Transportation Services 2019 Interim Operating Budget, within Cost Centres TP0397.

DECISION HISTORY

This report addresses a new initiative.

COMMENTS

As a result of an operational review, Transportation Services staff identified an uncontrolled three-way intersection at Scarbell Drive and Starfire Drive (northwest intersection).

Existing Conditions

The following characteristics describe Scarbell Drive and Starfire Drive:

- The uncontrolled three-way intersection is located north of Ellesmere Road, west of Meadowvale Road, and east of Morrish Road.
- Sidewalks are located on at least one side of the road.
- The land use in this area consists of single family residential dwellings.

A minor street stop sign is recommended at the uncontrolled three-way intersection which will provide stop sign uniformity on the streets in this area, clearly define the right-of-way, and enhance driver and pedestrian safety.
