

JENNIFER
MCKELVIE

City Councillor
Scarborough-Rouge
Park
Ward 25

August 28, 2019

Dear Member of Scarborough Community Council:

Re: Request for Transportation Study for Traffic Management on Golders Green Ave in Ward 25

SUMMARY:

Golders Green is a local road with a sidewalk on both sides and a speed limit of 40 km/hr. It connects East Ave, a collector road, to Port Union Road, a minor arterial road, via Winter Garden Trail. There are no all-way-stop controls on Golders Green Avenue. William G Davis Junior Public School and Joseph Howe Senior Public School are located in close proximity.

My office has received a petition signed by local residents requesting an all way stop control at Golders Green Avenue and Whiterock Drive. The petition is signed by 27 households on Winter Garden Trail, 21 households on Golders Green Avenue and 1 household each on Whiterock Drive and Grandhall Court.

I hereby request a traffic study on Golders Green Avenue, to determine if any stop signs, or other traffic management methods are warranted for improved clarity and safety.

RECOMMENDATION

That Scarborough Community Council recommend that:

1. Transportation Services undertake a traffic study on Golders Green Avenue between Winter Gardens Trail and East Avenue to determine if any stop signs or other traffic management devices are warranted to improve traffic flow and safety for both vehicles and pedestrians, and report back to the December 3, 2019 meeting of Scarborough Community Council.

Thank you for your consideration.

Sincerely,

Jennifer McKelvie
City Councillor
Ward 25, Scarborough-Rouge Park
