## **RECOMMENDATIONS**

---

Municipal Licensing and Standards recommends that the Scarborough Community Council give consideration to the exemption application and decide to:

1. Refuse to grant the application for an exemption by the owners of 28 Keon Place, for the existing board on board wood fence which does not comply with the provisions of Toronto Municipal Code, Chapter 447, Fences, and direct that a Notice of Violation be issued.

OR

2. Grant the application for the proposed exemption. Direct and require that the installation be maintained in good repair without alteration. Direct and require that at such time as replacement of the fence is required that such installation will comply with Municipal Code Chapter 447, or its successor by-law.

## **FINANCIAL IMPACT**

---

There is no financial impact anticipated in this report.

## **DECISION HISTORY**

---

The owner(s) submitted a fence exemption application, in writing, on August 8th, 2019 for an existing board on board wood fence located in the front yard.

As required by Section 447-1.5.(B)(5), Municipal Licensing & Standards has responded to the fence exemption application by preparing this report for Scarborough Community Council's consideration, and, the City Clerk has sent all requisite notifications of the date that Scarborough Community Council will consider the application.

## **COMMENTS**

---

The existing board on board wood fence contravenes Toronto Municipal Code, Chapter 447- 1.2.C(1) with respect to being within 2.4 metres from the lot line at which the driveway begins not being made of open mesh, chain link construction, as well as Toronto Municipal Code, Chapter 447- 1.2(B)(1) exceeding the maximum height of 1.2m within 2.4m of a lot line abutting a public highway.

Note that there is no sidewalk present on this side of the road, and the existing 0.8meter high fence on the City's Right of Way is a permitted encroachment as advised by Transportation Services. Moreover, as advised by Transportation Services the existing board on board wood fence located on the City's Right of Way does not pose a sight line obstruction.

At this time, Municipal Licensing and Standards has no immediate Health and Safety concerns given the findings of Transportation Services.

The existing board on board wood fence would not contravene any other provisions of the bylaw.
