Toronto and East York Community Council
Committee Room 1, City Hall
100 Queen St W
Toronto, ON M5H 2N2

Dear Chair and Members,

NEW BUSINESS REQUEST: Installation of Speed Humps on Brock Avenue (Dundas Street West to College Street)

SUMMARY:

In mid-2018, I received a resident petition requesting that speed humps be installed on Brock Avenue, between Dundas Street West and College Street, in order to address safety concerns. Upon receiving the petition, I requested that Traffic Operations staff undertake a speed hump feasibility study.

In late 2018, Traffic Operations reported back on my request to have speed humps installed on Brock Avenue. In their report, City staff recommended the installation of speed humps on this section of Brock Avenue, as the installation criteria had been met.

Given that speed humps were warranted for installation on Brock Avenue, I informed residents of this by way of letter in early March 2018. To date, feedback regarding this matter has been positive and in support of speed humps on Brock Avenue, between Dundas Street West and College Street.

RECOMMENDATION:

It is recommended that The Toronto and East York Community Council:

1. Waive the petition and polling requirement under the City's Traffic Calming Policy and approve the installation of traffic calming on Brock Avenue, between Dundas Street West and College Street.
2. Direct the City Solicitor to prepare a by-law to alter the roadway to install three speed humps on Brock Avenue, between Dundas Street West and College Street, generally as shown on the attached Drawing No. 421G-3347, dated March 2019.

Thank you for your consideration.

Ana Bailão
Deputy Mayor
Councillor – Ward 9, Davenport
