**Subject:** Zoo Board Meeting ZB7.9  
**Date:** October 22, 2019 1:20:18 PM

---

Dear Zoo Board,

I agree with all the environmental programs at the Toronto Zoo, but I am concerned about how animals are collected and counted in Bioblitzes. I hope that the Durham 2018 Bioblitzes used non lethal, humane catch and release, and photography to identify animals. I hope that they avoided lethal methods like snap traps.

Please add this communication to the agenda item.

Sincerely,

Nicole Corrado
