Dear Mayor Tory, Councillor Bradford, and Councillor Fletcher,

The East Toronto Family Practice Network is the voice of 200 family doctors in East Toronto, caring collectively for over 200,000 patients.

We are writing in **strong support of fast-track implementation for 40km of cycling infrastructure across Toronto**, in particular the segment across Danforth Avenue.

Complete streets, including separated cycling infrastructure, have long been proven to be safer for everyone. The data is clear. Separated bike lanes have reduced death, collisions, and injury around the world. People feel safer on streets with bike lanes. People have felt safer on Bloor Street after installation of bike lanes.

We applaud your support for adding infrastructure to safely walk, ride and roll through Danforth. Thank you for keeping our patients safe.

Yours sincerely,
