RE: Support for the Mobility Greenway Conservancy (IE14.17)

Dear Mayor Tory and Toronto City Councillors,

On behalf of pointA, I am writing to express our support for the Our Greenway Conservancy and its Mobility Greenway plan. For nearly two decades, pointA has proudly operated the Smart Commute program within the North Toronto area where Our Greenway is proposing the 31 kilometres of Mobility Greenway. This initiative is integral to not only enabling greater transportation options for residents and those who pass through the area, but also increases access to underutilized greenspace while also preventing flooding and ensuring more resilience in the area. This aligns with pointA's organizational mandate to offer programs and services that benefit the environment, economy, and health and well-being of our communities.

We are grateful and supportive of Mayor Tory and Toronto City Council's recovery efforts, the development of ActiveTO, and more bike lanes across Toronto. The Mobility Greenway would only add to these efforts and continue to enable our resilient and sustainable economic recovery.

Thank you for your attention and consideration and we look forward to seeing the Mobility Greenway implemented in North Toronto soon.

Sincerely,

A black rectangular redaction box covering the signature of Dorinda So.
