SENT VIA EMAIL

PH15.6 Expanding Housing Options in Neighbourhoods City Council Meeting No. 23 via Video Conference – July 28, 29, 2020 Held during the COVID-19 Emergency Measures, as modified by Stage 2

I recently learned that Toronto City Council is conducting city business via video conference. Like many residents, I have self-isolated to prevent the spread of the virus and to stay healthy. So, it is surprising to see the agenda so dense and full of items that Council will be considering over the scheduled two days.

I write as an individual to request that Council reject the recommendations (which includes the work plan pp. 46 to 55 of Attachment 1 of the agenda) put forward by Planning and Housing Committee for PH15.6 Expanding Housing Options in Neighbourhoods and to have all documents attached to the agenda be set aside or received with no further action to be taken.

I release my objections now with reasons to follow. Please note my voice is not associated with any community, resident/ratepayer or umbrella group.

Respectfully,
Eileen Denny
