---

Good day Councillors,

I am writing on behalf of the Church Wellesley Neighbourhood Association, CWNA.

At a time when Covid has highlighted the many glaring inequities in our communities it is imperative that all measures be taken to provide consistent, equitable services to all of Toronto.

Our downtown community has rallied to support those in desperate need, shopped local to help our business neighbours and done our best to keep each other safe.

We need all your help to ensure we can safely navigate our sidewalks as we continue our fight during this pandemic.

Let's all show we care for each other now more than ever.

Sincerely,

Connie Langille  
President  
CWNA

Members of Council,

It is inequitable that residents in some areas of the city receive sidewalk snow clearing while others do not.

With COVID-19 forcing us outdoors, Toronto must prepare for an increase in pedestrian traffic this winter. The lack of snow removal impacts everyone, but most of all, those with mobility challenges.

I encourage you to vote for Councillor Matlow's amendments, which requests harmonizing sidewalk snow clearing standards across every neighbourhood.

Sincerely,

Connie Langille  
President  
Church Wellesley Neighbourhood Association
