Comment

"I've heard the people in the City Hall building indirectly call Flemingdon an "unfortunate" space/community for too long."

"Ever since the 25th Ward system was implemented, Flemingdon Park has been grouped with more economically privileged areas like the Bridle Path, Leaside, and Yorkmills communities. Gerrymandering may silence our votes, but it will not silence our voice."

"Flemingdon Park is a beautiful area that deserves to have a say in it's own development! We are the ones who live here and deal with the consequences years down the line - the City & Preston Group should be reaching out to us, not making us chase after them."

"Public consultations should have been held. That said, I think this is the wrong fight. We aren't going to stop this development, that's reality. However, it gives the community ammunition to use to fight for things like better schools and services. Take the overcapacity argument to City Council/TDSB, especially with Wynford Green on the way. Radical change to this community is coming with the LRT and future Ontario line. Should we fight to keep the past or fight for a better future?"

"It will create a lot of problems for the residents of neighbourhood specially the insufficient facilities of Grenoble Public School."

"I've lived in this area for over 6 years now. Not once have I heard about this development and I reside in a building right behind the area."

"I live near the community."

"I oppose the proposed development of Flemingdon Park"

"We need more recreation space rather than increasing the already high density in our community. Local Councillor should be working for residents and not developers."

"when they say "under utilized green space" they gotta realize we don't have any free space. might as well start building apartment buildings 5m away from each and connecting the balconies at this rate."

"why are there so many dead links on the proposal ??? my mom tried going on the city website and reading the proposal but it kept giving her dead ends!"

"Local community organization FPPA fought for space in this community 20 years ago, and the City of Toronto awarded us Volunteer of the year twice 2003 & 2006!!! and now our beloved City is adding more concrete buildings instead of space, is "It'll be for our community"

"Greed"

"There is school in front kids come and go it will be lot of accident will happen"

"This is insulting to Torontonians everywhere. The values of politicians in this country never fail to disappoint me."

"Because Flemingdon Park residents matter!!!"

"Please save this Park"

"I live in flemo and I don't appreciate how gentrification is going to be affecting my family and I. We are already going through so much because of covid and systemic racism and now this?"

"Development can be a very good thing when in the right area and done correctly. This is an incredibly poor decision and is being done immorally and incorrectly"

"It will be far too congested, it already is that way. Being a person that needs a scooter to get around..it's very difficult to get around using sidewalks. There is already a massive development happening on the north west corner of Donmills and Eglinton."

"Plz save the flemo park"

"We need to preserve our neighbourhoods. Stop!!!"

"Population density problems are not solved by creating more density!"

"My childhood home :{"

"Flemingdon Park is a vast community that comes together as a village. There is a lack of services and it stills goes on. It does not need or support a 37 story building - when it cannot support what is already in place. It does need funds, services, community space to better allow community members to together."

"I'm a resident of the Flemingdon Park community and had no idea this was happening."

"Thornccliffe park and Flemington was my home for 11 years, it hurts to see my community fall even further. This needs go be stopped."

"That park is a part of Canadian national history & should not be subjected to this corporate gentrification!"

"You can't be proud of the diversity in your city and ignore the voices, concerns, lives, health of those people. You also can't destroy green spaces and then, with your next environmentally-provided breath, lament about your city's lack of them."

"I grew up in this area for 25 years of my life. The green space is needed and was pivotal in my upbringing as an adolescent. Many of the immigrants have enjoyed the space as a way to gather (obviously not during COVID) and their children to play in. Adding a condo in that space is intrusive and unnecessary as well as selfish. Flemingdon park needs this space. It would be devastating for immigrants and long standing residents."

"I grew up here! Save this neighborhood. Many families have lived in this building for over 15 years"

"Cause this is just so wrong...."

"Save My Home"

"I have lived in Flemingdon Park my whole life and do not want to see it become gentrified like many other at-risk"

"I grew up in this neighborhood and have fond memories even in this building. Let's help save it."

"It's unfair to remove an affordable neighborhood"

"I have lived in this community my whole life. It would be such a shame to see a beautiful community destroyed."

"This community shaped me into the person i am. I never want to see it change unless it benefits those who have made it great all these decades."

"i live close by Flemingdon park"

"The Greatest Community in the world!!"

"We all need park for future generations"

"I am signing as someone who grew up in Flemingdon Park. I met everyone significant in my life in this neighbourhood, created wonderful memories in this neighbourhood and learned all the valuable lessons I now adapt in my life in this"

"This is my home, my neighbourhood and the only home I know. I want to protect the things that make my home beautiful"

"Green space in the City should be preserved and respected!!!"

"I am signing this because I was a resident of a highly ethnic and immigrant, high density neighbourhood and understand how development groups gentrify us!"

"I grew up here my whole life"

"Signing this petition on behalf of my filipino family. We want only the best for Flemingdon Park."

"Please Save Flemingdon Park"

"This act of racism and capitalist aggression is unacceptable."

"Leave Flemo alone...improve it, don't replace it!!"

"dude what the hell is wrong with people can't you just let others LIVE"

"This is home"

"It is not up to the city!"

"The City of Toronto has to protect its resident."

"I live right across the street and my daughter loves playing over there and its good for being social"

"My daughter lives right beside this park and goes to school right around the way after schooo she loves to go to the park play with friends"

"I used to live in Flemingdon Park, and this area has always meant a lot to me"

"I'm signing this because I am from Flemingdon park. I have lived here for 20 years and this neighbourhood has been a safe heaven for immigrants for years. Taking away the green space would socially & economically effect the majority of the Flemingdon community. Sources of exercise and mental freedom the green space offers to families in every level within the low income categories would tremendously increase the obesity rate in Toronto."

"Stop the gentrification of Toronto!"

"this is a family community being ruined by this decision"

"This is the first neighbourhood my parents came to when we first immigrated to Canada from Turkey back in 1981. I took kindergarten at Grenoble public school."

"Green space is safe space"

"I agree, the population is high in flemingdon park snd adding another chi throes will only aggravate the existing issues. Until the city works with the people to find a workable solution they should not be building anymore high rises in that area"

"This proposal is out of hand why n"

"Built a community center, the youth can benefit from."

"And the area shown in this picture is so attractive already. NOT. One thing you can always count on developers for is to be utterly tasteless, devoid of any aesthetic sense whatsoever. There is absolutely no reason for people to be forced to live in such ugliness, except for apathetic, money hungry, soulless people who should live in their own developments for awhile and see how it makes them feel. And now they want to trash even more greenery."

"We need green space and affordable housing in every community."

"I am signing this because we need park space, DO NOT fill it with residential or commercial development .. PLEASE"

"This was my home for many years and its important to maintain the Greenspace for generations to come"

"This Flemingdon Area is a place of home for me and my family for 10 years and we never thought that there could be a proposal for destroying such a beautiful one-space green area. I enjoy this open green space from my balcony in all seasons! My kids love to see the beautiful view from the balcony! It's very sad to know that this green space area is going to be destroyed!"

"Healthy community over greed of wealthy builder developers. Our Flemingdon community is already over populated, actually much higher than its planned capacity when the community was designed in 1960s as a community within a park...This over crowding has created many problems too like recently power outage has been a regular occurrence ...City must understand there is no space for multiplex complexes here. STOP this over development craze and greed."

"Don't convert this beautiful community in to a concrete jungle.....City must stop approving multiple development proposals here ..."
