Your Worship and Members of Council:

Re: Item CC26.5 - TOcore - Updating Tall Building Setbacks in the Downtown - City Initiated Official Plan Amendment and Zoning By-law Amendments - Update and Request for Directions for Local Planning Appeal Tribunal Hearing

We are the solicitors for University Health Network ("UHN") in connection with the LPAT appeal of Official Plan Amendment No. 352 and By-laws 1106-2016 and 1107-2016 (collectively, the "Proposed Amendments").

Further to our client's issues before the LPAT, UHN continues to have concerns with respect to the Proposed Amendments and their impact on the future development and expansion of institutional uses generally, and hospitals in particular, within the Downtown core. In particular, UHN is concerned that the Proposed Amendments do not adequately address the needs of institutional uses which are important to the City and inherently have different built form requirements than other residential and non-residential uses within the Downtown.

We appreciate the City's efforts to address these concerns and wish to continue discussions with the City in this regard in an attempt to resolve the outstanding concerns of UHN on a consensual basis. Accordingly, we are writing to advise that UHN will be seeking Tribunal-led mediation and is hopeful that the City will consent to and support its request.
