Josie:

As you are aware how horrific and taxing has been for me since the introduction of Phase 1 ( December 05,2018) of the enhanced security at City Council alone.. it took almost a year for staff " the experts" to understand how to deal with people with mental illness and physical such as DIABETES. I have hundreds of pictures and videos of the absurd situation at City Hall - Chambers Third Floor - Public Washrooms without having the need to go to the Ontario Human Rights Tribunal.

Josie:

This matter must be CONSULTED via the TAC Toronto Accessibility Advisory Committee of the City of Toronto. BECAUSE as you know Josie Scoli and Staff has admitted FAILING to consult with TAC before the implementation of PHASE 1 of the enhance security measures at City Hall, .. so why in the agenda you are not including an advisory committees if the city won't take us seriously? Have they ever consulted with me? Is it because I am DISABLED , josie?

Josie:

It s BUDGET TIME, and I know your staff much RATHER prefer to CONSULT with outside Consulting Firms (friends of friends) to capture their view of disability challenges and disregard TAC.

I sincerely and strongly advise you Ms Josie Scoli to add to the agenda a motion that can address my concerns.. after all your experts were the creators of the "TOILET CARD" Do we want to do something more ridiculous in 2020 and beyond? Come on City Hall is becoming a NATIONAL LAMPOONS movie title even worse when former Mayor Rod Ford was in control of City Hall.

Really ?

Sincerely as always
